7. The first line for Event #1 will be highlighted in blue and eligible swimmers will be displayed in the box beneath.
8. Choose the box **Enter All**. This enters all active swimmers into this event which is not an actual event. Doing this puts all active swimmers on your team into the meet entry file. This is helpful to the head table if swimmers are entered into the meet with handwritten cards who are not in the original meet entry file.
9. Click the **Next Event** and all eligible swimmers will be displayed in the box beneath.

From this screen you will click on swimmers' names to select them for individual events. Put the mouse cursor on the entry box and click to choose a swimmer for the event. When you click on the entry box the name is "highlighted". Do not continue until the check mark appears. To remove a swimmer from selection, click on their name again and the highlight will be removed.

IMPORTANT: In JRAC, Novice swimmers are allowed to "swim up" into the Regular division (Hy-tek calls speed categories divisions) at the six dual meets. When entering a Novice swimmer in a Regular heat, his or her best time or NT (for No Time) will be listed in the **Best Time** column. After the name is highlighted, click on the cell in the **Custom Time** column and enter the Novice cutoff time for the appropriate stroke, gender, and age category. Cutoff times can be found in the rulebook. This will put the swimmer in the Regular category for scoring the event, but will not affect his or her best time.

Teams are allowed to enter 3 swimmers in Regular exhibition freestyle in the 8 and under, 9-10 year old, and 11-12 year olds age-groups. To enter a swimmer as exhibition click on the EXH box and then enter the correct novice cut-off time for the age group and gender in the custom box if the swimmer is not actually Regular. Teams are allowed to enter 3 Regular exhibition swimmers in 9-10 and 11-12 100 IM

and must be entered as exhibition by clicking the EXH box. If a swimmer does not have a Regular time, be certain to put the appropriate novice cut-off time in the custom box.

When finished entering for an event, click the **Next Event** or **Next Swimmer** button at the top of the screen to continue the process on the next event or next swimmer.

MEET MANAGER 8.0

Meet Setup

You will first need to copy the Meet Manager meet templates for 2024 into your **swmeets folder** which is the default folder for all swim meets associated with the Meet Manager program. It is suggested that you open the swmeets folder on your hard drive and then create a folder named 2024 meets inside the swmeets folder. Templates are downloaded from the website (www.jracsummerswim.org) and can be found on the Swim Results page grouped by week. Prior to the beginning of the season, download all 6 of your team's dual meet templates into the 2024 meets folder in your swmeets folder. Do this by clicking on the link for your meet under week 1. The meet will be downloaded to your hard drive and you can then copy and paste it into the 2024 meets folder. Repeat this process for your weeks 2-6 meets. When ready to prepare for a meet, open MM. Choose file/open new and find the correct meet in your 2024 meets folder. The chosen meet will open and the name of the meet will show up in the top menu bar. These meet templates are *.mdb files* and do not need to be unzipped.
